# Introduction

The India Israel Centre website is powered by **Payload CMS**, a headless content management system. All site content — publications, people profiles, convenings, and static page copy — is managed through the admin panel.

This guide walks through every section of the admin panel with screenshots. You do not need any technical knowledge to use it — if you can fill in a form, you can manage the site.

## ADMIN URL

`https://indiaisraelcentre.org/admin`

## LOCAL DEVELOPMENT URL

`http://localhost:3000/admin`

**Note:** Always use the live URL ([indiaisraelcentre.org/admin](https://indiaisraelcentre.org/admin)) for real content. The localhost URL is only for development and testing on your own machine.

01

## Logging In

Navigate to the admin URL and enter your email and password. Each team member should have their own login — do not share credentials.

Payload

Email \*

Password \*

[Forgot password?](#)

Login

*The Payload CMS login screen — enter your email and password to access the admin.*

## Dashboard & Navigation

After logging in you land on the dashboard. The left sidebar lists every section of the admin:

**Collections** (dynamic content with multiple entries): Users, Media, Publications, People, Convenings, Newsletter Subscribers, Pillars.

**Page Content / Globals** (single-entry pages): Homepage, About, Forum, Research, Privacy, Terms, and more.

*The admin dashboard and navigation sidebar. Collections are top-left; page globals are below.*

## Publications

Publications are the Centre's research output. There are three types: **Papers**, **Briefs**, and **Commentary**. Each publication appears on the relevant research page on the site.

Click **Publications** in the left sidebar to see all entries.

*The Publications list — all papers, briefs, and commentaries in the database.*

## Creating a Publication

Click **Create New** (top right) to add a publication. Fill in each field:

| Field | Required? | Notes                                                                                                        |
|-------|-----------|--------------------------------------------------------------------------------------------------------------|
| Title | Required  | Full title of the publication. Used in the page heading and browser tab.                                     |
| Slug  | Required  | URL-friendly ID, e.g. india-israel-water-tech. Only lowercase letters, numbers, and hyphens. Must be unique. |

|                        |                  |                                                                                            |
|------------------------|------------------|--------------------------------------------------------------------------------------------|
| Type                   | Required         | Paper, Brief, or Commentary. Determines which listing page it appears on.                  |
| Pillar                 | Required         | Select the research pillar this publication belongs to.                                    |
| Authors                | Required (min 1) | Add one or more authors. Each has a Name and optional Affiliation.                         |
| Published Date         | Required         | The publication date — appears on cards and the article page.                              |
| Abstract               | Optional         | 1–3 sentence summary shown on listing cards and previews.                                  |
| Body                   | Optional         | Full article text with rich formatting (headings, bold, links, lists). Paste or type here. |
| PDF (Supporting files) | Optional         | Upload a PDF version. Expand the "Supporting files" section at the bottom.                 |
| DOI                    | Optional         | Digital Object Identifier string if available.                                             |

**Slug tip:** Make it short and descriptive. The URL will be /research/papers/your-slug/. Once published and shared, avoid changing the slug.

## 04 People

The People collection manages researcher and team profiles that appear on the About → People page.

Each person has a name, role, short bio (rich text), and an optional photo.

*The People list — all profiles currently in the system.*

A screenshot of a web application interface for creating a new person profile. The header shows a hamburger menu, a home icon, and the text "/ People / Create New". Below the header, the title "[Untitled]" is followed by a "Create New" button. A subtitle reads "Team members shown on the About / People page. Not linked to publications." The main form is titled "Creating new Person" and has a "Save" button. The form fields are: "Name" (required), "Slug" (required), "Role" (required), "Bio" (rich text editor with a placeholder "Start typing, or press '/' for commands..."), "Photo" (with buttons "Create New" and "Choose from existing", and a note "or drag and drop a file"), and "Email". At the bottom, there is a section titled "Areas of Focus" with a "+" button and the text "Add Areas Of Focus". A small "N" icon is in the bottom left corner.

04

## People Fields Reference

| Field               | Required?       | Notes                                                                         |
|---------------------|-----------------|-------------------------------------------------------------------------------|
| <b>Name</b>         | <b>Required</b> | Full name as it should appear publicly.                                       |
| <b>Slug</b>         | <b>Required</b> | Used in the URL: /about/people/slug/. Lowercase, hyphens only.                |
| <b>Role / Title</b> | Optional        | Their position, e.g. "Chair of the Forum" or "Research Fellow".               |
| <b>Affiliation</b>  | Optional        | Institutional affiliation, e.g. "O.P. Jindal Global University".              |
| <b>Bio</b>          | Optional        | Full biographical text in rich text. Shown on their profile page.             |
| <b>Photo</b>        | Optional        | Upload a portrait photo. JPEG or PNG, ideally square or portrait orientation. |

## Convenings

Convenings are the Centre's events — roundtables, public lectures, and dialogues. They appear on the Forum page.

Upcoming convenings (future event dates) are shown prominently. Past convenings move to the archive.

*The Convenings list — all past and upcoming events.*

A screenshot of the 'Create New Convening' form in the same application. The page title is '[Untitled]'. The form is titled 'Creating new Convening' and includes a 'Save' button. It contains several input fields: 'Title', 'Slug', 'Event Date' (with a calendar icon), 'Format' (a dropdown menu currently showing 'Lecture'), 'Pillar' (a dropdown menu currently showing 'Select a value'), 'Description' (a text area with a placeholder 'Start typing, or press \'/\' for commands...'), and 'Video Url' (a text field with a placeholder 'Optional YouTube or Vimeo URL of the recording.'). A small 'N' icon is visible in the bottom left corner.

05

## Convenings Fields Reference

| Field       | Required? | Notes                                                                                |
|-------------|-----------|--------------------------------------------------------------------------------------|
| Title       | Required  | Name of the event.                                                                   |
| Slug        | Required  | URL: /forum/slug/. Lowercase, hyphens.                                               |
| Format      | Optional  | Roundtable, Public Lecture, or Dialogue.                                             |
| Event Date  | Required  | Date of the event. Upcoming events (future dates) are highlighted on the forum page. |
| Location    | Optional  | Physical venue or "Online".                                                          |
| Description | Optional  | Rich text description of the event, agenda, and participants.                        |
| Cover Image | Optional  | Upload an event photo or banner.                                                     |

**Past vs upcoming:** The site automatically shows convenings with a future Event Date as "upcoming" and past ones in the archive. Simply set the correct date — no toggle needed.

## Media Library

The Media collection is a central library for all uploaded files — images and PDFs. Files uploaded here can be reused across multiple publications and pages.

You can upload directly via a publication or person form, or come here first to upload and organise files.

*The Media library — all uploaded images and PDFs.*

## Uploading Media

- 1 Click **Media** in the left sidebar.
- 2 Click **Create New** in the top right.
- 3 Drag and drop a file, or click the upload area to browse. Supported formats: JPEG, PNG, WebP, GIF, PDF.
- 4 Add an **Alt text** for images — this is important for accessibility and SEO.

5

Click **Save**. The file is now available to attach to any publication, person, or convening.

**Image sizing:** For publication covers and people photos, use images at least 800px wide. For PDFs, any size is fine.

## Newsletter Subscribers

This collection stores everyone who has signed up for the Centre's newsletter via the website footer or homepage form.

This is a **read-only** list for admin reference. Subscribers are added automatically when someone signs up on the site.

The screenshot shows a web application interface for managing newsletter subscribers. At the top, there's a header with a menu icon, a user profile icon, and the text "/ Newsletter Subscribers". Below this is a section titled "Newsletter Subscribers" with a "Create New" button. A search bar labeled "Search by Email" is present, along with "Columns" and "Filters" dropdown menus. The table below has two columns: "Email" and "Created At". A single row is visible with the email "akshit.aryan1999@gmail.com" and the date "May 12th 2026, 9:50 PM". At the bottom right, it says "1-1 of 1" and "Per Page: 10". A small "N" icon is in the bottom left corner.

| Email                      | Created At             |
|----------------------------|------------------------|
| akshit.aryan1999@gmail.com | May 12th 2026, 9:50 PM |

*The Newsletter Subscribers list — name, email, and sign-up date for each subscriber.*

The Pillars collection defines the six research pillars of the Centre. These appear in the research navigation and on publication cards.

The six pillars are pre-configured. Only edit them if the Centre formally redefines its research areas.

*The Pillars list — the six research themes of the India Israel Centre.*

## Page Content — Globals

Globals are single-entry records that control the copy on specific pages. Unlike collections (which have many entries), each global has exactly one version.

Use globals to update page headings, introductory text, and featured descriptions without a developer.

**Research — Papers / Briefs /  
Commentary**

Listing page headings and descriptions per type.

**Privacy Policy / Terms of Use**

Full legal text for those pages.

## Tips & Best Practices

Follow these guidelines to keep content consistent and the site running smoothly.

### Slugs

**Keep slugs short and permanent.** The slug becomes the URL. Once a publication is live and shared or indexed by Google, changing the slug breaks that link. Choose carefully before publishing.

Good: bene-israel-diaspora-identity

Avoid: publication-1 or draft-testing-123

### Publication Body — Rich Text

**Pasting from Word or Google Docs:** Use *Paste as plain text* (Ctrl+Shift+V / Cmd+Shift+V) to avoid carrying over invisible formatting. Then apply headings and bold within the editor.

Use the toolbar to add **Heading 2** and **Heading 3** for section titles, **Bold** for key terms, and the link icon for hyperlinks.

### Images

**Image formats:** JPEG for photos, PNG for logos with transparency, WebP for optimised web images.

**Alt text:** Always fill in the alt text when uploading to the Media library. It describes the image for screen readers and search engines. Example: *"Professor Khinvraj Jangid at the India-Israel conference, 2024"*.

### Saving

**Always click Save.** The admin does not auto-save. Changes are lost if you navigate away without saving. The Save button is at the top right of every form.

### Publishing Workflow

- 1 Draft** — Create the entry and fill in all fields. Save frequently.
- 2 Review** — Share the admin link with a colleague for a proof-read (they need an admin account).

**3**

**Publish** — Once approved, save the final version. The entry goes live immediately on the public site.

**4**

**Announce** — Share the published URL on the Centre's social channels.

## Getting Help

If you encounter an issue with the admin panel or content is not displaying correctly on the site, contact the technical team at [research@indiaisraelcentre.org](mailto:research@indiaisraelcentre.org). Include a screenshot and a description of what you were trying to do.
